## About Me

I hold a Diploma in Mechanical Engineering, which built my foundation in technical problem-solving, and a BSc. in Business Management from Lancaster University, UK, which broadened my global business perspective. Currently, I am pursuing the PCP in Business Management from IIM (Kozhikode), focusing on sharpening strategic and leadership skills.

By God's grace, I am financially well-settled, allowing me the freedom to choose work and activities that align with my passions, values, and long-term vision rather than being driven solely by monetary needs. My career reflects adaptability, continuous learning, and a deep sense of responsibility toward our family business, our people, and our customers.

### **Values & Beliefs**

I believe in harmony, cooperation, and sincerity. Honesty and straightforwardness guide my interactions, and I naturally look for the best in people. I find joy in helping others and choose peace over conflict. These values shape both my personal and professional life.

### **Personality & Lifestyle**

I have a cheerful, optimistic outlook and enjoy building and nurturing close, meaningful relationships. I feel at ease in small, familiar groups and confident when leading, though large crowds feel overwhelming. I prefer calm, scenic places—resorts, beaches, and mountains—over the hustle and bustle of city life. My approach to life is organized, thoughtful, and committed, whether in work or relationships. According to the D-I-S-C model, I align with the **S (Steady)** profile, and in the Myers-Briggs framework, I identify as **INTJ**.

### **Interests & Activities**

I am intellectually curious and enjoy exploring new ideas through thoughtful discussions and meaningful challenges. My hobbies include table tennis, chess, long drives, and reading self-help and management books. I occasionally watch cricket and Bollywood movies, enjoy select social gatherings, and value both stability and continuous personal growth.

### **Lifestyle Habits**

I follow a disciplined meditation routine and maintain light to medium exercise for well-being. I am a pure vegetarian in daily life (occasionally having eggs while travelling abroad) and open to fresh, healthy cuisines. I do not smoke or drink.

## About My Family

I come from a close-knit and well-respected Gujarati family that upholds long-term relationships, strong ethics, and the principle of "simple living and high thinking." We remain grounded, measuring success not merely by wealth, but by health, character, values, and the positive impact we create.

- **Father:** Vishal Shah (born 1970) – Mechanical Engineer, entrepreneur, and researcher in management and neuroscience.
- **Mother:** Purvi Shah (born 1974) – B.com, homemaker and actively involved in our business, overseeing civil and interior projects.
- **Sibling:** Dr. Riti Shah (born 1999) – Dentist (BDS, FDS – RCT Specialist), running a clinic with her fiancé, Dr. Dhyey Shah (Dermatologist).
- **Grandmother:** Sumitraben Shah (born 1940) – Independent in her daily life.

## **About My Life Partner**

I seek a life partner who is intelligent, thoughtful, and naturally curious—someone who enjoys meaningful conversations, loves exploring ideas, and values emotional honesty. She leads a balanced lifestyle: active yet calm, purposeful yet relaxed, preferring close connections over constant social engagements.

Kindness, optimism, cooperation, and a warm, balanced nature matter to me. I admire a modern mindset that also values family traditions. Honesty, integrity, and a sense of purpose are essential. She values her well-being and follows habits that support a healthy, positive life.

### **Family Background of My Ideal Partner**

I appreciate an upbringing in an educated, financially stable, and well-regarded family—one that nurtures good character, lifelong values, and harmonious relationships, with a reputation built on integrity rather than wealth alone.

### **Physical Compatibility**

I value a pleasant and well-groomed appearance, with height and weight in appropriate proportion. Grace, charm, and a sense of personal care are qualities I appreciate.
